Contents of Volume 21 2007

Number 1 January–March 2007

National surveillance of psychosocial risk factors in the workplace: An international overview
M. Dollard, N. Skinner, M. R. Tuckey and T. Bailey 1

Emotional labour and emotional exhaustion: Interpersonal and intrapersonal mechanisms
D. Martínez-Iñigo, P. Totterdell, C. M. Alcover and D. Holman 30

Job tenure as a moderator of stressor–strain relations: A comparison of experienced and new-start teachers
G. Bradley 48

Job insecurity in temporary versus permanent workers: Associations with attitudes, well-being, and behaviour
N. D. Cuyper and H. De Witte 65

The importance of context specificity in work stress research: A test of the Demand-Control-Support model in academics
C. A. McClenahan, M. L. Giles and J. Mallett 85

Number 2 April–June 2007

A longitudinal study exploring the relationships between occupational stressors, non-work stressors, and work performance
J. A. Edwards, A. Guppy and T. Cockerton 99

Perceived violence climate: A new construct and its relationship to workplace physical violence and verbal aggression, and their potential consequences
P. E. Spector, M. L. Coulter, H. G. Stockwell and M. W. Matz 117

Testing Karasek's learning and strain hypotheses on young workers in their first job
H. De Witte, E. Verhofstadt and E. Omey 131

Self-control demands, cognitive control deficits, and burnout
K.-H. Schmidt, B. Neubach and H. Heuer 142

Dimensions of work–home culture and their relations with the use of work–home arrangements and work–home interaction
J. S. E. Dikkers, S. A. E. Geurts, L. D. Dulk, B. Peper, T. W. Taris and M. A. J. Kompier 155

National cultures and safety orientation: A study of seafarers working for Norwegian shipping companies
J. I. Håvold 173

Number 3 July–September 2007

Warr's scale of job-related affective well-being: A longitudinal examination of its structure and relationships with work characteristics
A. Mäkikangas, T. Feldt and U. Kinnunen 197

Relationships between stressful work environments and bullying: Results of a large representative study
L. J. Hauge, A. Skogstad and S. Einarsen 220

Developing criteria for healthy organizational change
P. Ø. Saksvik, S. D. Tvedt, K. Nytrø, G. R. Andersen, T. K. Andersen, M. P. Buvik and H. Torvatn 243

Work hours and well-being: The roles of work-time control and work–family interference
E. L. Hughes and K. R. Parkes 264

The relationship between perceived employability and subsequent health
E. Berntson and S. Marklund 279

Number 4 October–December 2007

The contribution of the psychosocial work environment to sickness absence in human service workers: Results of a 3-year follow-up study
R. Rugulies, K. B. Christensen, M. Borritz, E. Villadsen, U. Bültmann and T. S. Kristensen 293

Emotional strain and organizational citizenship behaviours: A meta-analysis and review
C.-H. Chang, R. E. Johnson and L.-Q. Yang 312

Assessing the cumulative effects of stress: The association between job stress and allostatic load in a large sample of Chinese employees
J. Sun, S. Wang, J.-Q. Zhang and W. Li 333

Evaluating organizational-level work stress interventions: Beyond traditional methods
T. Cox, M. Karanika, A. Griffiths and J. Houdmont 348
